Where the revenue or capital balance is lower at the end of the 2016 financial year than at the end of the 2015 financial year, please provide a summary of the reason for this in the box below.

Revenue – Funding reduced for 2015-16

Capital - Funding has been built up to support the expansion programme that are not refundable by Surrey through the LEA capital funding.

If the school has a **deficit**, it would be helpful to know why – please give brief details in the box below.

Please note: as part of the assessment, your school will be asked to supply budget forecasts showing current expenditure and how it expects to reach a balanced budget within 2-3 years. The department's preferred format for that information is for income and expenditure to be set out using the Consistent Financial Reporting codes. If you are able to submit this with your application, please do. Don't worry if this is not possible at this stage: your project lead will discuss this with you on receipt of your application. If your school has a deficit recovery plan agreed with the LA, please send that with your application form.

If the school has any existing loan(s) and/ or lease(s), please provide details in the box below as follows:

- a) loan provider, total amount, schedule of repayments and interest rate
- b) lessor with details of arrangement, timescale and charges.

7. Declaration

By submitting this application we, the governing body of the school named in this application, confirm that:

- we have the authority to resolve that our school should become an academy;
- all the information included is true and accurate to the best of our knowledge;
- if the school is a foundation or voluntary school that has a foundation and there is a diocese, trust, or other body that appoints governors in our school, then that body and the trustees of the school have separately agreed that we may convert to academy status. (A letter stating this will be sent from that body to the department. Project leads will need to receive this consent letter before our application can be processed);
- a resolution to apply to convert to academy status has been held and carried and a record of this decision is available should departmental officials wish to see it;
- if the school is part of a federation, we have complied with the requirements in The School Governance (Federations) (England) (Amendment) Regulations 2015 (1554) when passing the resolution to apply to convert to academy status, and a record of the voting is available should departmental officials wish to see it;
- we will, in accordance with Section 5 of the Academies Act, consult with any stakeholder we consider relevant to our conversion and also consider any equality needs, and that this consultation will be completed before we sign our funding agreement;
- there are no financial or safeguarding investigations ongoing at our school;
- individuals who will act as members and trustees of the proposed academy trust, as well as the individuals associated with it, must ensure that principles are promoted which support fundamental British values, including: respect for the basis on which the law is made and applied in England; respect for democracy and support for participation in the democratic

processes; support for equality of opportunity for all; support and respect for the liberties of all within the law; and respect for and tolerance of different faiths and religious and other beliefs;

- we accept that the department may ask for any additional information as they see fit to assess our application and that as a condition of our conversion we shall provide it;
- should any information presented in this application be revealed to be false or misleading, our application may be rejected and our academy order potentially rescinded if it has already been awarded.

Name and position of the person that completed this form	Stephanie Legge, School Business Manager
Date form was completed	12/02/16

Supporting notes for schools to fill in the form

We will automatically generate historic data sets for your school's performance, including pupil progress, over the last four years from published data. Your project lead will be in touch to discuss your predictions for your school's performance for the coming year.

2. Conversion date

The default conversion date is 5 months from the month of application - a straightforward conversion will take around 5 months to complete. If the school is part of a PFI contract, it can take 6 months or longer to complete the process. If you would prefer to opt for an alternative date, please state this on the application. Your project lead will discuss this with you in more detail either whilst processing your application or as soon as you gain an academy order.

3. Single academy or multi-academy trust

3a. Single academy

All schools that are performing well can apply to convert to academy status as standalone academies. Each application will be considered on a case by case basis, with the decision being informed by various factors. These include:

- your school's exam results from the last 3 years
- the progress your pupils have been making over the last 3 years
- your most recent Ofsted inspections
- your school's finances

Supporting another school - as part of the conversion process, we expect Ofsted rated "outstanding" or "good with outstanding features" schools which convert into an academy to commit to support at least one weaker school in return for academy status.

3b. Multi-academy trust

If you feel that your school is not currently performing well, you can apply to form a multi-academy trust with other schools or join an existing multi-academy trust. We would expect the majority of the schools in this "family" to be performing well.

Name of trust – needed for all established trusts. The trust must consent to your school joining them. Please send in their letter of consent with your application either by post or via the email address applications.academies@education.gsi.gov.uk. We will be unable to progress your application without their consent.

Forming a new trust – please give the name of the trust and the other schools intending to join.

Structure of MAT – if the trust is already established, please give as much information as possible on how it is structured, for example in a diagram. If you are forming the trust with other schools, we recognise you may not have come to a firm decision on its structure yet, but it will be very helpful to see the early stages of your planning.

3.2 Trust governance

As part of the conversion process, we will expect your governing body to consider its governance structure and arrangements because, as an academy trust, we would expect its board to be lean and tightly run.

We recognise that your governing body may not have reached firm decisions on this yet and we are interested in their thinking as it develops – your governing body is not required to commit themselves to plans at this stage.

Your governors may find it helpful to consult further information on the roles and responsibilities of members and trustees which can be found on:

- The Charity Commission website:
 - [Setting up and running a charity](#)
 - [Trustee role and board](#)
- The Academies' Financial Handbook, which can be found on the Education Funding Agency's pages on the GOV.UK site [here](#)
- The Governors' Handbook, which can be found on the department's pages on the GOV.UK site [here](#)

Number of founding members of the trust – these will be the individuals who will sign the memorandum of association that sets up the academy trust. The members agree the articles of association for the academy trust and hold the board of trustees to account for the management of the trust. The articles define the charitable purpose of the trust and how it will be run. The minimum number of members is three but we would encourage your governors to consider having five members in order to ensure that the members have the necessary skills and expertise to hold the trustees to account for school leadership/improvement, financial accounting and running a charitable company.

Please give the number of the members of the trust, the number of members who are also trustees, and the number of trustees.

4. Finance

Deficit Reduction Plan - if your school has a deficit of more than 3% of its dedicated School Budget Share, we will need to see a copy of any deficit reduction plan that has been agreed with your LA. If one has not yet been agreed, your project lead will be in touch with you to discuss your progress.

5. Additional information

Ofsted – please complete with the overall grade of your last published Ofsted inspection. Your project lead will discuss the report with you. If you have been inspected by Ofsted very recently and the report has not been published, please let us know. Your project lead will discuss this with you.

Consent of Diocese, Foundation, Trust or other body – your project lead will need to see evidence of this in order to progress your application. You may send in a copy of their letter of consent electronically via applications.academies@education.gsi.gov.uk or in hard copy to the department.

If your school is part of a federation, please confirm that your application for an academy order has complied with the relevant regulations (The School Governance (Federations) (England) (Amendment) Regulations 2015 (1554)).

Building works, shared use including nurseries, Sport England funding, PFI, BSF and PSBP - we do not need full information at this early stage, but it is helpful to know whether your school has any of these arrangements as they typically require additional time to deal with. This could affect your scheduled conversion date.

Any other information – please add any further information you think would be significant for your school's application. Your project lead will be in touch to discuss this with you.

You may also send in any further information via applications.academies@education.gsi.gov.uk or in hard copy to the department.

6. Academy conversion support grant

The conditions of the grant are in the academy financial support grant claim form available on the from the department's pages on the GOV.UK website [here](#). When you have converted to academy status you will be required to confirm that the grant has been spent on the specified purposes only. For ease of reference, the conditions are:

1. Grant may only be used for the following purposes:
 - a) obtaining legal advice in respect of the conversion process;
 - b) the costs of software licence transfers;
 - c) HR/TUPE advice;
 - d) re-branding costs; and
 - e) expenses incurred in setting up of the academy trust.
2. You should retain records to show that the grant has been used for the purposes outlined in (1) above for 6 years after the end of the financial year in which the expenditure has taken place. The books and records of the school relating to the claiming and use of grant will be open to inspection by the National Audit Office and representatives of the Secretary of State as and when they may require.
3.
 - a) In the event of a successful conversion, any unused element of grant should be transferred to the academy trust for the purposes described in its charitable objects, typically the advancement of education. The chair of the governing body will be expected to sign a declaration confirming how much of the grant has been spent at the point of conversion to academy status and, if relevant, how much has been transferred to the academy budget. The chair will send a certificate (which you can download from the DfE pages on GOV.UK [here](#)) to the Secretary of State declaring this and including the exact amounts of grant spent and transferred
 - b) In the event that the conversion does not occur, then any unused grant should be repaid to the Secretary of State within 10 working days of notifying us that you are withdrawing your application to convert.
4. When procuring goods and services for the school or academy, you are reminded of the requirement to comply with EU and UK procurement law and regulations when appropriate.

Please email the completed application form (in Word format) to the following address Applications.ACADEMIES@education.gsi.gov.uk and copy it to your DfE project lead.
